## PROFESSIONAL SUMMARY

Professional Front-End Developer with 2+ years of experience in building high-performance, scalable web applications. Expert in React.js and Vite ecosystem, with a deep understanding of modern UI/UX principles and state management. Proven track record of transforming complex designs into functional, responsive code. Strong communicator with a background in English Literature, enabling seamless collaboration in international team environments.

## CORE STRENGTHS

- Frontend: React.js (Hooks, Context API), JavaScript (ES6+), Tailwind CSS, Vite.
- State & Data: RESTful API Integration, JSON, Local Storage.
- Tools & Workflow: Git/GitHub Expert, NPM/Yarn, Agile Methodology.
- Optimization: Web Performance Tuning, Responsive Design (Mobile-First), Clean Code.

## PROFESSIONAL EXPERIENCE

- Freelance Front-End Developer | Jan 2024 - Present
- Architected and deployed 3+ major web applications using React.js and Vite, focusing on performance and SEO.
- Reduced initial load times by 30% by implementing code-splitting and optimizing asset delivery.
- Collaborated with UI designers to ensure pixel-perfect implementation across various screen sizes.
- Managed version control and deployment pipelines using Git/GitHub, ensuring 100% code integrity.
- Junior Web Developer | Jan 2024 - Dec 2024
- Developed interactive components for e-commerce and educational platforms.
- Streamlined project setups using Vite, improving the development environment speed by 40%.
- Identified and resolved complex bugs in legacy JavaScript code, enhancing site stability.

## KEY PROJECTS

### Greenora - E-commerce Web Application

Live: <https://greenora2.netlify.app>

Code: <https://github.com/yourusername/greenora>

- Developed scalable React-based e-commerce application using reusable component architecture
- Implemented dynamic product rendering and cart state management
- Integrated REST API for real-time product data handling
- Structured optimized state management to minimize unnecessary re-renders
- Built fully responsive mobile-first interface
- Implemented loading and error states to enhance user experience

### MiniStyle - E-commerce Platform

Live: <https://ministyle.netlify.app>

Code: <https://github.com/yourusername/ministyle>

- Designed modular React components for structured and scalable UI
- Applied UX principles to improve navigation flow and user interaction
- Built maintainable layout architecture for long-term scalability
- Optimized layout structure for clean visual hierarchy and usability

## EDUCATION

### Computer Programming

- Anadolu University - Open Education Faculty

### Front-End Development Training

أكاديمية علاء الدين الحلاق

Completed intensive practical training in:

HTML5 & CSS3 | Bootstrap | JavaScript (ES6+) | React.js | Responsive Web Design | UI/UX Foundations

## LANGUAGES

Arabic: Native | English | Turkish

## CERTIFICATIONS

- Front-End Development Certificate
- React Development Certificate
- Web Design Foundations Certificate

## COLLABORATION & WORK STYLE

- Comfortable working within structured project environments
- Able to follow design systems and component libraries
- Strong attention to clean, maintainable, and scalable code
- Capable of translating Figma designs into production-ready interfaces
- Detail-oriented with strong focus on UI consistency and usability
